

The Enrolment Bonus Project

Families who have an existing enrolment in the College may gain ONE TERM FREE OF FEES for one of their children for every new successful enrolment they recommend to the College for our double streamed classes.

A number of conditions apply, but families can gain multiple bonuses. The aim is to encourage parents to boost enrolments as we double stream our classes. This bonus is given in gratitude for bringing new students to our Christian College.

This incentive project will continue until the majority of the double streamed classes are filled or until the College Board decides it is no longer necessary.

The Conditions that Apply For the Bonus to Be Granted:

- The student proposed for enrolment must be successful in their enrolment application, i.e. They must successfully meet all the enrolment criteria and there must be space available in the class in question;
- Only one family may claim the enrolment bonus;
- The family seeking the enrolment must come with an ENROLMENT BONUS FORM signed by the existing family and present it at the time of first enquiry or application;
- Enrolment may not be claimed retrospectively by any family;
- Families may not claim the bonus for a sibling of a child already in the College;
- The enrolment bonus may only be claimed as one term free of fees, NOT as a cash payment from the College;
- The bonus may not be claimed for a child entering Kindergarten or Trindy;
- The bonus may not be claimed for an existing student moving through the enrolment steps from Year 6 to Year 7, or Year 10 to Year 11;

How to Gain an Enrolment Bonus

- Speak to other families about enrolling at the College;
- If they decide to enrol, have them complete an enrolment application (available from the office or our website – mysccollege.com) and submit it along with an Enrolment Bonus Form filled out by you (see the website);
- If the enrolment is successful, you will receive a letter stating that you have been granted one term free of fees.
